

Application No. 10/735,645

In the specification:

Page 5, second full paragraph:

When adjacent vertebra 29 are aligned, and the superior articular facet 22 of one vertebra faces the inferior articular facet 24 of an adjacent vertebra facet, two lumens, or holes, 26 and 28 may be formed, such as by drilling with a drill 30, through the aligned superior and inferior processes of the adjacent vertebrae 29.
